For immediate release

Double Gold Mercury xRM awarded further Microsoft Gold Partner competency.

In recognition of Mercury xRM's substantial experience implementing solutions in the cloud for Recruitment and Staffing organisations, we have recently achieved Microsoft Gold Partner status in the Cloud Platform competency.

This compliments our Microsoft Gold partner competency in Application Development and is testament to our track record of enabling adoption of Microsoft's Cloud Platform for customers across the globe.

Microsoft Partners with a Gold Competency are recognised for their commitment to solidifying customer relationships by offering innovative and effective business solutions to their customers. A business which has earned a Gold Competency is among the top 1% of Microsoft Partners worldwide.

Richard Liddington, Chief Technology Officer at Mercury xRM says the company is delighted to achieve this recognition.

"We've supported our staff through training and certifications as the Azure platform evolves, this recognition is testament to the talent of our consultants, as well as continued efforts to ensure Mercury xRM customers benefit from adopting Microsoft's Cloud Platform"

"Our Gold partner status in both Application Development and Cloud Platform reflects the effort and expertise Mercury xRM have in leveraging Microsoft Dynamics 365, Microsoft's Power Platform, Office 365 and Azure to deploy the best available technology solutions to recruitment and staffing businesses worldwide"

Cloud platform adoption is now a strategic focus for many organisations and delivers fundamental technology benefits that can help the execution of multiple business strategies.

The global public cloud service market is projected to reach \$266 billion in 2020* (*source [Gartner](#)).

About Mercury xRM

Mercury xRM is an intelligent recruitment solution leveraging Microsoft's Cloud Platform to provide recruitment and staffing businesses globally with unmatched capabilities for candidate sourcing, business development and extensive solution integration opportunities.

As a Microsoft Gold partner and finalist in Microsoft Partner of the Year, Mercury xRM fully embraces the Microsoft cloud technology platform, powered by Microsoft Dynamics 365, Office365, Microsoft Teams, and Microsoft's Power Platform.

Mercury xRM is owned and run by former recruitment professionals who designed and built the solution.

Headquartered in the UK, Mercury xRM expanded into the US and Australia in 2019. visit www.mercuryxrm.co.uk
